

KAREEM MOHAMED HANAFY

Frontend Engineer | React.js • Next.js • TypeScript

Menoufia, Egypt | +20 104 425 8597 | karimhnfy1@gmail.com | [Portfolio](#) | [LinkedIn](#) | [GitHub](#)

PROFILE

Frontend Engineer specializing in React.js, Next.js, and TypeScript, with hands-on experience building responsive e-commerce platforms, admin dashboards, and multilingual RTL/LTR applications. Skilled in REST API integration, reusable component architecture, performance optimization, and translating Figma designs into pixel-accurate, production-ready interfaces.

TECHNICAL SKILLS

Languages & Frameworks: JavaScript, TypeScript, React.js, Next.js, HTML5, CSS3, Tailwind CSS, shadcn/ui

Frontend Engineering: Responsive Design, Accessibility, REST API Integration, State Management, i18n/RTL Localization, Performance Optimization, Reusable Components

Backend & Databases: PHP, MySQL, Prisma, PostgreSQL

Tools: Git, GitHub, Postman, Figma, Vercel, Chrome DevTools

KEY PROJECTS

[Kidorly](#) — Multilingual Kids E-Commerce Platform (Full-Stack)

Next.js • TypeScript • Prisma • PostgreSQL • Tailwind CSS • shadcn/ui

- Built and deployed a multilingual e-commerce platform supporting Arabic, English, and German with full RTL/LTR handling.
- Implemented product browsing, filtering, wishlist, cart, guest checkout, payment options, and WhatsApp order flow.
- Developed an admin dashboard for managing products, orders, categories, brands, discounts, media, and store settings.
- Added SEO essentials, Cloudinary media handling, and production deployment on Vercel.

[Menoufia University Portal](#) — Multilingual University Frontend Platform

React.js • Vite • TypeScript • i18next • REST APIs

- Led the frontend rebuild of a multilingual university portal, transforming a limited expatriates-focused site into a full institutional platform.
- Built dynamic pages for faculties, departments, sectors, special units, and general administrations, all connected to REST APIs.
- Implemented global search, dynamic routing, and a multi-palette theme system using React Context and CSS variables.
- Delivered full RTL/LTR support and responsive layouts across all modules.

[FourMap](#) — Client Engineering Website & Custom CMS

PHP • MySQL • CMS • RTL Arabic • Admin Dashboard

- Developed a complete engineering services website end-to-end for a Saudi engineering company.
- Built a responsive RTL Arabic interface with multiple marketing pages and a clean user experience.
- Developed a custom CMS and admin dashboard for managing content, images, contact information, and social links.
- Implemented backend logic and database structure using PHP and MySQL; added WhatsApp integration and deployed to live production.

EDUCATION

B.Sc. in Mathematics and Computer Science — Menoufia University, Egypt | Expected 2026

LANGUAGES

Arabic — Native | English — Upper-Intermediate | German — Intermediate
